Walfera's place was the habitual resort of abandoned women, who went there for the purposes of soliciting, and that the Liquor law had been violated constantly. A number of walfera's customers swore that the place was conducted in a quiet and orderly manner.

Commissioners Meakim and Fitzpatrick were the only members of the Board present when the testimony was closed. The former expressed a very decided opinion that walfera's license should be revoked at once, but Commissioner Fitzpatrick refused to vote on the evidence.

The result was that the decision of the Board in the matter was reserved.

Commissioner Meakim stated that he had personal knowledge of the disreputable character of the place, and testified that he had repeatedly visited it and had been openly solicited by the abandoned women who congregated there nightly.
